

Border-radius / Box-shadow / Gradients - Activity

With this activity you will be styling the page to have 3 columns, using floats. There will be a drop shadow on the right side and bottom of the page, a gradient behind the right sidebar and rounded corners on the gradient. You will not need to add the navigation. There will only be a brown area, under the header, where navigation would appear. The finished page will appear as follows:

Files provided in download are:

- Images
 - canoe.jpg
 - headerImg-lrg.jpg
- styles
 - normalize.css
 - borders-shadows.css
- page_one.html
- bord-shad-grad-Activity.pdf (these directions)

NOTE:

- A little bit of the CSS is provided to you. Add your CSS code to the provided borders-shadows.css file.
- Some code in the HTML has been commented out. Keep it that way for this activity.
- In the CSS file do not remove the CSS rule `* { margin: 0; }.`

Border-radius / Box-shadow / Gradients - Activity

Your task is to recreate this page by coding the CSS.

Directions (CSS):

- For the body background set to green using:
 - Red of 33
 - Green of 66
 - Blue of 0
 - Alpha (opacity) of .5
- Set the page to:
 - A width of 80% with a maximum of 1280px and a minimum of 660px.
 - Center the page using the margin property.
 - Page content background is set to white.
 - Left and right page borders are set as a solid with a width of 1px and the green color of #336600.
 - Add a box shadow on the right and bottom of the page.
 - Note: You can use a box shadow generator found online.
 - Include necessary vendor prefixes. (The online box shadow generator will provide what you need.)
 - Set the horizontal and vertical shadow to 7px.
 - Set the spread to 5px.
 - Set the color to:
 - Red of 33
 - Green of 66
 - Blue of 0
 - Alpha (opacity) of .75
- For the header:
 - Using *rem*: set the height 8 times the base font size.
 - Set the background color to brown of #660000;
- Header image:
 - Set the width and height to 100%.
- Navigation (nav tag):
 - Using *rem*: set the height to 1.25 times the base font size.
 - Using *rem*: set a padding-top.
 - Set the background color to brown of #660000.
- Column 1: (What is the column to the left with the image.)
 - Float the column.
 - Using *rem*: set the margin-top to .9375 times the base font size.
 - Using *rem*: set the margin-left to .625 times the base font size.
- Column 1 image:
 - Set a width of 100%.

Border-radius / Box-shadow / Gradients - Activity

- Column 1 paragraph:
 - Using *rem*: set the font-size to .75 times the base font size.
 - Align the text to center.
 - Set the text color to green of #336600.
- Section tag:
 - Float to the right.
 - Set the width to 73%.
 - Give the section tag a margin of:
 - Note: Use the shorthand margin property.
 - Using *rem*: set the top and bottom margins to .625 times the base font size.
 - Using *percent*: set the right margin to 1%.
 - Using *rem*: set the left margin to 0.
- Column 2 (What will be the center column):
 - Float to the left.
 - Set the width to 66%.
 - Using *rem*: Set the font size to 1 times the base font size.
- Column 3 (What is the right most column with the gradient behind the text.)
 - Float to the right.
 - Give it a width of 31%.
 - Provide a padding:
 - Note: Use the padding shorthand property.
 - Using *rem*: Set the top and bottom padding to be 1 times the base font size.
 - Using *percent*: Set the left and right padding to be 1%.
 - Using *rem*: Set the font size to be 1 times the base font size.
 - Round the 4 corners:
 - Note: You can use a border radius generator found online.
 - Include necessary vendor prefixes. (The online border radius generator will provide what you need.)
 - Using *rem*: Set the radius on all 4 corners to .625 times the base font size.
 - Add a background gradient:
 - Note: You can use a gradient generator found online.
 - Include necessary vendor prefixes. (The online gradient generator will provide what you need.)
- Footer:
 - Using *rem*: Set the height to 1.25 times the base font size.
 - Set the background color to brown of #660000.
- Footer text:
 - Using *rem*: set the font size to .75 times the base font size.
 - Set the margin on the left to 26%.
 - Using *rem*: set the padding on top to .2 times the base font size.

Border-radius / Box-shadow / Gradients - Activity

Note: The page_one.html renders as follows before you add your CSS code.
